PERSONAL SUMMARY

Dynamic Web Developer with proven expertise at WavePay Retail, specializing in innovative solutions like a Self-Checkout System using React and Python. Adept in API integration and problem-solving, I excel in enhancing user experiences while collaborating effectively in teams. Committed to delivering high-performance web applications and secure transactions.

CORE SKILLS

- Problem Solving
- Team Collaboration
- Creative Thinking
- Time Management
- Effective Communication
- Front-End Development
- Back-End Development
- API Integration
- WordPress Customization
- Database Management

PROJECTS

Web Developer / WavePay Retail - UK   *12/2024 - 03/2025*

- Developed a Self-Checkout System using React and Python for a university dissertation.
- Integrated MediaPipe Hands for real-time hand gesture recognition.
- Added voice command functionality with Speech Recognition APIs.
- Configured Firebase Firestore for secure, cloud-based transaction storage.
- Streamlined the checkout process with an automated, time-saving session flow.

Web Developer / STYLCLO   *12/2023 - 02/2024*

- Developed Stylclo, an e-commerce platform using WordPress and WooCommerce.
- Designed a custom theme for a clean, modern user interface.
- Managed product catalog for seamless browsing.
- Implemented secure transactions for safe checkout.
- Built a user account system for order management and preferences.

Web Developer / ItSoulInfoTech   *08/2023 - 10/2023*

- Developed and maintained responsive websites using modern front-end technologies like HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams to design and implement user-friendly interfaces and web applications.
- Integrated APIs and third-party services to enhance website functionality and improve user experience.
- Optimized website performance and load times, ensuring fast and efficient user interactions.
- Managed version control and deployment processes using Git and platforms like GitHub and GitLab.

Web Developer / ITSoulInfoTech

- Designed, developed, and optimized multiple WordPress websites to deliver optimal performance.
- Customized themes and plugins to improve site features and enhance user experience.
- Implemented robust security measures and optimized site speed for better efficiency.
- Worked collaboratively in small, agile teams to provide customized e-commerce and business solutions.
- Created dynamic web applications using PHP, HTML, CSS, JavaScript, and jQuery, focusing on both frontend and backend integration.
